SUMMARY

Web Developer with 2.5+ years of hands-on experience in front-end development and practical backend integration using Node.js and PostgreSQL/MongoDB. Started my career as a React.js Developer and gradually transitioned into full-stack development by building and deploying real-world applications. Passionate about designing scalable, high-performance web apps with clean UI and optimized server-side logic.

Experience

MERN Stack Developer

Adgion Technology Pvt Ltd, Kolkata (02/26 – present)

- Led end-to-end development of a healthcare SaaS platform using Next.js, Node.js, TypeScript, and PostgreSQL, enabling appointment booking, provider management, lab test scheduling, and patient engagement workflows.
- Designed scalable REST APIs, role-based access control, and multi-tenant dashboards for patients, doctors, clinics, diagnostic centers, and administrators, ensuring secure and efficient healthcare operations.
- Integrated Razorpay payments, SMS/email notifications, and advanced search capabilities while optimizing application performance, maintainability, and deployment workflows.

Frontend Developer > MERN Stack Developer

Sapco IOT Pvt Ltd, Kolkata (02/24 – 10/25)

- Initially joined as a Frontend Developer, building responsive interfaces in React.js, Next.js, and Tailwind CSS.
- Later took initiative to develop backend features using Node.js, Express, and MongoDB, integrating APIs for data-driven dashboards and learning modules.
- Contributed to two full-stack projects from design to deployment, improving UI performance by 30% and backend response time.

Frontend Developer

Bipani Retails Pvt Ltd, Howrah (03/24 – 09/24)

- Developed new features, optimized UI performance, and fixed bugs
- Improved frontend functionality and overall user experience.
